About This Game

One of the greatest sci-fi strategy games of all time returns Spring 2016 with remastered visuals, online multiplayer, and near unlimited mod content from Steam Workshop.

Enter an alternate vision of the 1960s where the “space race” is nothing more than a cover for an interplanetary war between the US and Soviet Russia over mysterious alien bio-metal.

Take command of an army of sleek heavy assault tanks, strike cruisers, APCs and more, and wreak havoc with super-heated projectiles in your mission to blast your enemy from the face of the Moon, Mars, Venus, Titan, Io and Europa.

Scavenge the battlefields for crucial bio-metal, deploy powerful defenses, construct advanced facilities and escalate each battle to an epic confrontation.

Revolutionary, revitalised and remastered, Battlezone 98 Redux’s blend of thrilling first person action and tense RTS gameplay is as essential now as it ever was.
